

## STEPS TO START STAKING IN POOLTOGETHER.IO

If you hold some Fusion tokens, now is the time to start earning with them. Staking with us is simple. Just send us time-locked native fusion tokens and you start generating your passive income.

Below you may see short instructions in a few steps on ***how to send time-locked native Fusion tokens to PoolTogether.io pool and start staking.***

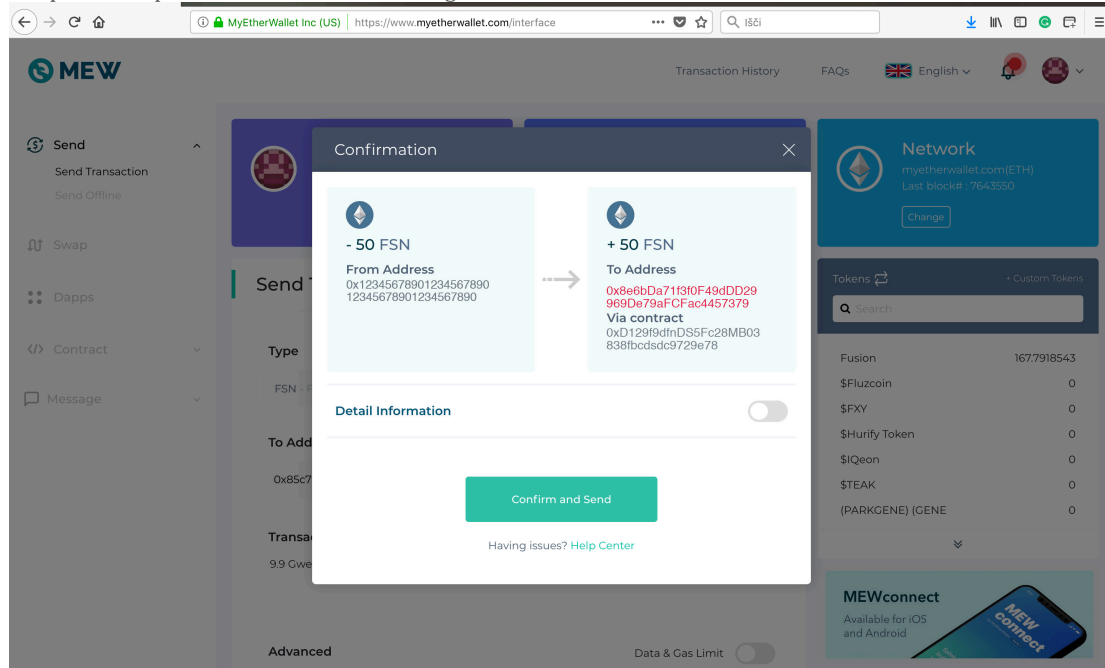

For any additional help on this topic please contact us on [support@pooltogether.io](mailto:support@pooltogether.io).

## STEP 1

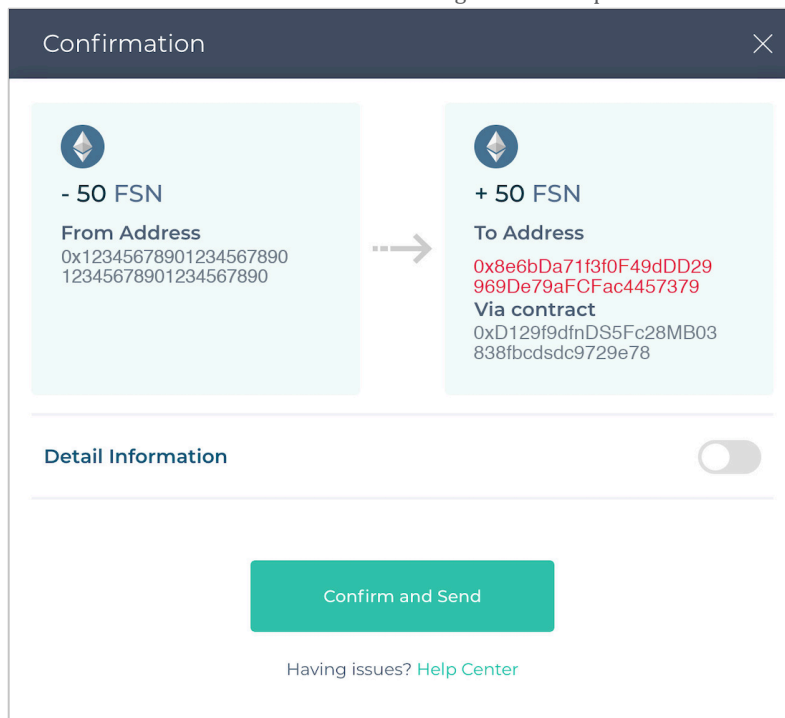

First, you need to hold some FSN tokens.

If you hold ERC-20 FSN tokens, you need to change/swap them to native FSN tokens. You can do this by sending them to an address specified on [Fusion webpage with Token Swap info](#). Additional info may be found also in this [article](#).

**Picture 1:** MyEtherWallet with ERC-20 FSN tokens in MyEtherWallet.com, prepared to be sent to token swap address published on [www.fusion.org](http://www.fusion.org).

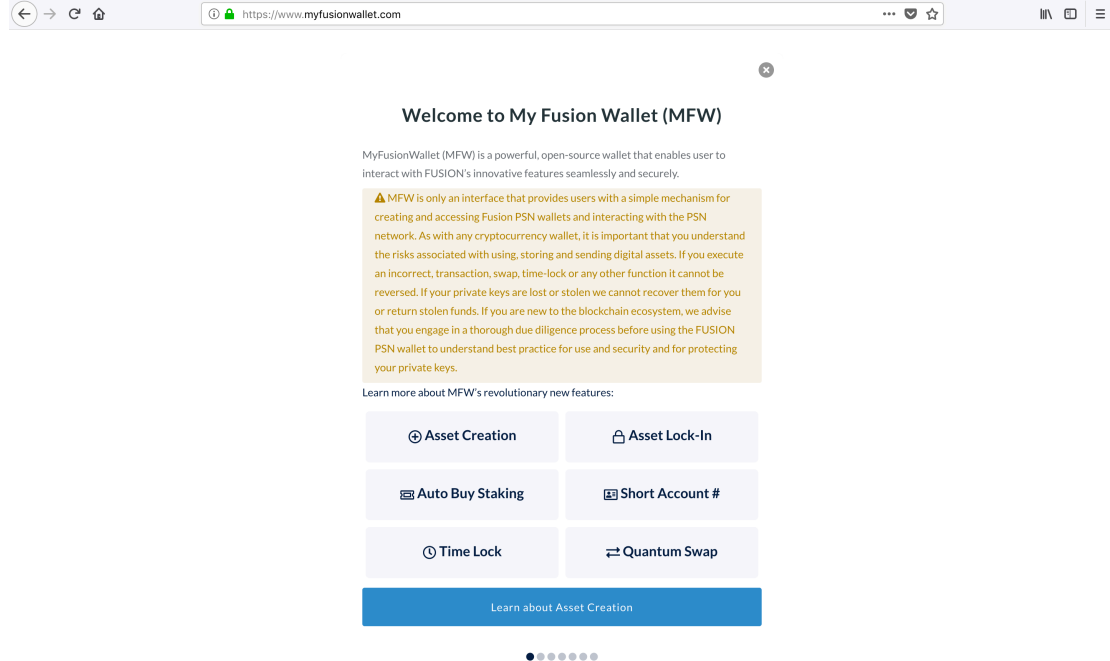

**Picture 2:** View on transaction before making a token swap.

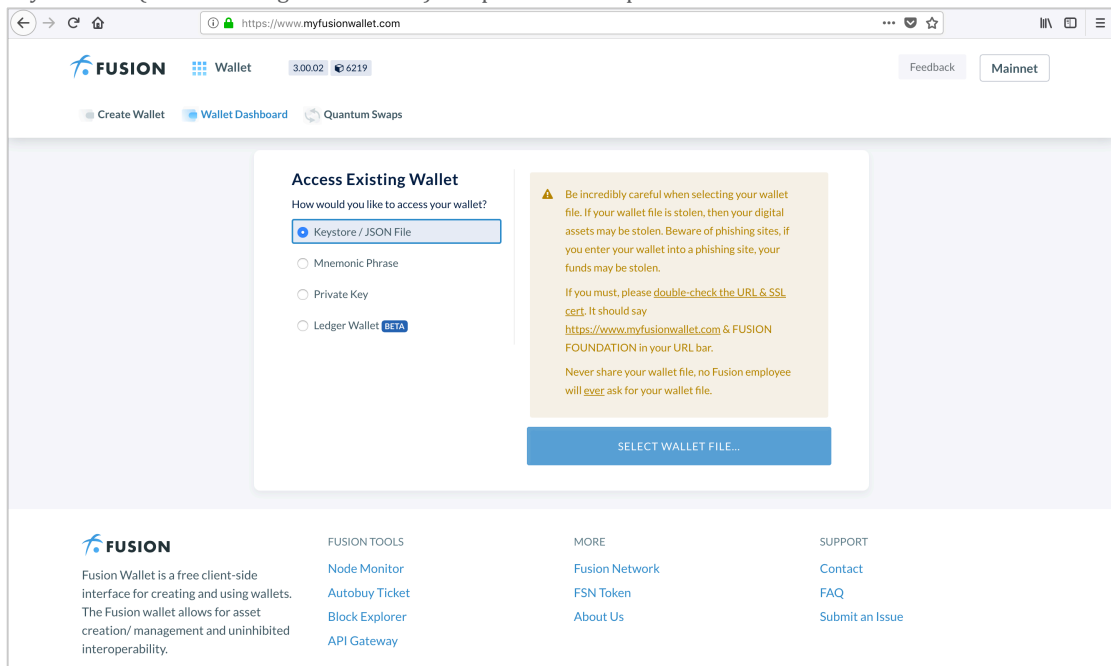

## STEP 2

Once you hold your native Fusion tokens, access your Fusion wallet on [www.myfusionwallet.com](https://www.myfusionwallet.com) the same way you access your [www.myetherwallet.com](https://www.myetherwallet.com) (i.e. using the same Keystore and password). You should see your native Fusion tokens here.

**Picture 3:** Go to <https://myfusionwallet.com>, choose your way of accessing the wallet.

**Picture 4:** Access your MyFusionWallet the same way you access your MyEtherWallet, i.e. using same Keystore file (name starting with "UTC...") and password to open it.

Picture 5: Check if you received your native FSN tokens. You may see this under ASSETS once you log-in.

Picture 6: View on Assets clearly showing there is now 50 FSN in MyFusionWallet.

### Assets

+ Create Asset Send/Time-lock Assets

The Assets section provides an overview of all the digital assets that are currently in your Fusion PSN wallet.

ASSET NAME	ASSET INFO	AVAILABLE	ACTIONS
 FUSION (FSN)  ID: 0XFFFFFFFFFFFFFFFFFFFF...	Fusion Asset	50	<div>Send</div>

### STEP 3

You now need to send you native Fusion tokens from your MyFusionWallet to our staking pool wallet address on MyFusionWallet which is:

**0x9FC4C40E50f902b9AA641B4a32ebaAFA5C9386A1**

**IMPORTANT: We suggest you double check this wallet address in our official Telegram channel. We will pin the wallet address there.**

**Minimum time-lock period** when doing so is 60 days. It is preferred to send us native Fusion tokens time-locked to 90/120/180/360 days as your actual staking will last for "time-lock period -30 days". *Please keep this in mind!*

**Minimum amount** of staking tokens is 150 FSN. *Please keep this in mind!*

**Picture 7:** How to send the decided amount to the PoolTogether.io node staking address with using time-lock function. (Note: after the time-lock period is over, tokens will automatically return to your MFW wallet address).

### Send Asset

TO ADDRESS:

Next

So, once you have sent the minimum amount of 150 native Fusion tokens with minimum 60 days of time-lock to our staking address 0x9FC4C40E50f902b9AA641B4a32ebaAFA5C9386A1, you have started staking with us!

## **STEP 6**

Now you can relax and wait with the rest of the bunch for the end of the month. We will prepare a report than and, after keeping an agreed fee, distribute the rewards tokens back to your wallet.

**You may than consider to re-stake also the rewards tokens as this gives you even more rewards in the future!**

**Pool Together with us, spread the word about us and simply start counting your earned rewards!**
